

Technology Coast
Manufacturing and
Engineering Network

Mission

To promote sustainment, growth and advancement within the technology-based business community through the association, collaboration, and contract teaming of its science, technology, engineering and math businesses, industry clusters and workforce development partners.

Technology Coast Manufacturing and Engineering Network, TeCMEN,

was established by the Economic Development Council of Okaloosa County, Florida in 1989 to be the premier business advocate for Science, Technology, Engineering and Math (STEM) industries. TeCMEN provides opportunities for innovative collaboration and advanced technical expertise locally, regionally, and in the competitive global marketplace. Contact the EDC for prompt, comprehensive engineering, manufacturing and technical solutions in commercial, defense and aerospace market sectors.

TeCMEN Industry Day

Introduced in 2017, TeCMEN Industry Day has become a "must attend" event for forward-looking technology, manufacturing and defense-oriented businesses from around the southeast US and beyond. With 400 participants and 86% of exhibiting businesses indicating that the event allowed them to identify new contacts for new customer opportunities—the TeCMEN Industry Day is the most exclusive one-day technical expo opportunity on the Gulf Coast.

Who is TeCMEN?

TeCMEN Represents

- ◆ More than 40 influential technology, engineering and manufacturing enterprises
- ◆ Fortune 500, mid-sized and small local businesses, to include disadvantaged businesses that are AS9100, ISO9001 and NASA certified
- ◆ Key educational and workforce development partners with STEM specializations

Capabilities Overview

Engineering and Technical Services

- 3-D Printing, Design and Modeling
- Air Transportation Support Services
- Architectural and Site Engineering
- Computer Systems Design
- Consulting & Staffing Services
- Cyber Innovation
- Data Processing
- Defense Engineering Assistance
- Design, Development & Rapid Prototyping
- High Security and IT Services
- Scientific Research & Development Services
- Utility System Construction
- Unmanned Systems Technology Services
- Wired and Wireless Telecommunications

Manufacturing – New and Replacement Parts

- Aircraft Maintenance & Modification
- Aerospace Components
- Automotive & Maritime Parts
- Architectural & Structural Metals
- Radar, Avionics & Communication Equipment
- Circuit Card Assemblies
- Electronic & Control Instrumentation
- Metal Finishing
- Precision Fabrication and Machining
- Semiconductor Components

Sponsored by the Economic Development
Council of Okaloosa County, Florida
